

# Guided Tour

## Welcome!

This guided tour will help you explore *Waggle*<sup>®</sup> as you learn how your students will be immersed in an unparalleled world where learning takes flight.

### What's *Waggle*?

***Waggle* is a digital supplemental practice solution for Math and ELA that unites the best in dynamic personalization with powerful instructional lessons for K–8 students.**

**Students:** Prepare students for high school and beyond with adaptive practice that moves students towards standards and skills proficiency.

**Teachers:** Extend your reach, maximize instruction time, support skills diversity, and receive actionable insights.

**Administrators:** Quantify students' strengths and weaknesses to measure growth and highlight success.

## Step 2: Explore the Student Experience

Start on the Student Dashboard, where *Waggle* gives students the tools to unlock their inner potential! By addressing the needs of the whole student, *Waggle* motivates learners to achieve new proficiency gains and develop a growth mindset.

- a** Use the top menu bar to **explore** the different classes and grade levels.
- b** Learning takes place within the **Missions!** These can be assigned by the teacher or set to auto-assign as students complete the task.
- c** **Personalization** begins when students design their avatar and select their world.
- d** Students earn **Rewards** to level up their avatar!
- e** Classroom community is built in the **Class View** as students share their wins with their peers.

## Step 3: Launch a Mission

Learning takes place within Missions, which can be assigned by the teacher or set to auto-assign as students complete their missions.

- **Learn:** Learning activities that provide reinforcement and instruction, guided practice, and independent practice, following a Teach, Model, Apply methodology towards understanding a skill.
- **Practice:** Adaptive, personalized practice to help students gain standards and skills proficiency.
- **Play:** Games that are a fun way to help with skill acquisition.
- **Skill Quizzes:** Quick five-question assessments to check for understanding.

### Area of Rectangles

In this lesson, you will ...

- Find the area of a rectangle by tiling.
- Find the area of a rectangle by multiplying side lengths.
- Show that the area of a rectangle is the same using tiling or multiplying side lengths.

Click or tap the photo to learn more about the American flag.

Click an image to get extra background and explanation.

More Info

See what students are working on, how much time they've spent in *Waggle*, and which students have received adaptive content to support their learning.

Immediately see what skills students are struggling with to help inform whole-group mini-lessons, small-group instruction, and 1:1 intervention opportunities.

Celebrate student success and quickly see what skills students have mastered.

See what Gems and Points have been awarded for the current week, the previous week, and overall.

The screenshot shows the Waggle teacher homepage. At the top, there are navigation tabs: Home, Find Content, and Reports. Below these are utility icons for Preview, Rosters, Alerts, and a user profile for Smith, Jane. The main content area is titled 'Home' and includes an 'AutoAssign Options' button. There are four summary cards: Summary, Skill Groups, Shout-outs, and Leaderboard. Below these cards is a summary row with metrics: Activity Last Week, Class Average: 1h 12m, Below Average Students: 2, Above Average Students: 3, and Inactive Students: 3. A table below this shows student performance with columns for Student, Current Block, Learn, Practice, Time Spent, and Reteach. The table lists three students: Bernard Massey, Neil Cruz, and Franklin Guzman.

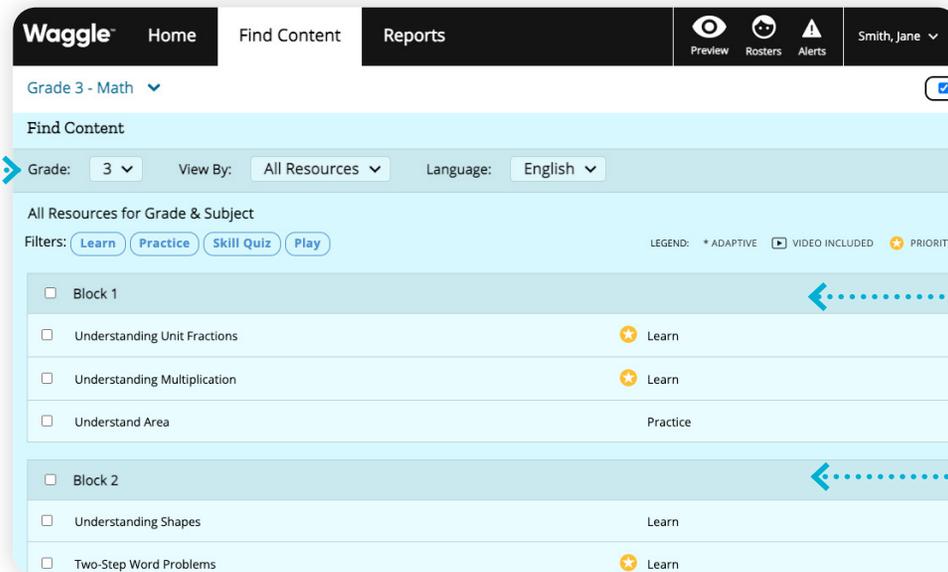

STUDENT	CURRENT BLOCK	LEARN	PRACTICE	TIME SPENT	RETEACH
<a href="#">Bernard Massey</a>	Mass and Capacity	Completed	On-level	36 min	-
<a href="#">Neil Cruz</a>	Mass and Capacity	In Progress	Below-Level	21 min	Capacity <a href="#">Move student to next block</a>
<a href="#">Franklin Guzman</a>	Equivalent Fractions	In Progress	Below-Level	28 min	Understanding Fractions <a href="#">Move student to next block</a>

## Step 6: The Right Instruction at the Right Time

Waggle's flexibility supports multiple teaching styles. Waggle will auto-assign appropriate practice and instruction or teachers can play an active role and assign additional content that supports their core instruction.

- **HMH Growth Measure Auto-Assign:** A standards-based, adaptive benchmark assessment given three times a year. Waggle assigns learning blocks based on each student's Grade Level Equivalency.
- **Grade Level Auto-Assign:** An auto sequencing functionality that assigns grade-level learning blocks as students progress through the content.
- **Teacher Assigned:** Select and assign targeted practice and instruction.

Every teacher can **flexibly differentiate** learning with full access to Waggle's K-8 content.

Boost achievement with learning blocks that provide students with the learning first and then the practice.
